RESPONSE

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

This is responsive to the Office Action mailed April 16, 2003 and follows up the teleconference with the Examiner on May 20, 2003.

Print - Fig 1

In the Specification:

Please replace the Abstract of the invention with the following:

2
A decorative material is disclosed which comprises two polarizers and at least one phase-shifting plate placed between the polarizers. Each polarizer has a controlled direction of polarization axis. The phase-shifting plate represents a continuous layer of an optically anisotropic material containing regions differing by optical properties.

To Quecier this is a ~~abstract~~
adherent use copy on newspaper
